

What is BYOD?

BYOD stand for Bring Your Own Device. BYOD refers to the policy for permitting students to bring their own devices (laptops/tablets) to school, and to use those devices to access the school wireless network and other school resources. Please read and sign the BYOD Student Agreement with your child and return it to the school.

Homebush Boys High School has been leading the way in using technology for our staff and students. Staff have dedicated their personal time in order to develop digital units of work to enhance teaching and learning programs and curriculum.

We expect that all students will have and use a portable device to assist their learning at Homebush Boys High School. This will give them the best access to all the online material compiled over the years.

We have attached the school BYOD Policy which includes the minimum specifications for acceptable devices to be used at school.
