ASSESSMENT POLICY

STAGE 4

Introduction

The purpose of this document is to outline the Assessment Policy of Homebush Boys High School for Years 7 and 8 - Stage 4. Please read this policy carefully and make sure you understand it. All students must sign to acknowledge that they have received this booklet.

What is Assessment?

Assessment is the process of identifying, gathering and interpreting information about student achievement. Assessment can be used for a number of key purposes, including to:

- assist in student learning;
- evaluate and improve teaching and learning programs;
- provide information on student learning and progress in a course in relation to the syllabus outcomes;
- provide evidence of satisfactory completion of a course, and
- report on the achievement by each student at the end of a course.

It is a requirement of the school assessment program that for each course the school must establish a program of assessment tasks. These tasks are conducted throughout the academic year and each has a weighting determined by the school within guidelines provided by the NSW Education Standards Authority (NESA). School-based assessment tasks are linked to standards because the tasks focus on outcomes which are valid instruments for what they are designed to assess, and the marking guidelines are related to the wording of the outcomes and the performance standards.

Each task enables teachers to collect information about students' achievement in relation to several outcomes, to award marks in accordance with marking guidelines, and to provide constructive feedback to students on their performance highlighting their strengths and indicating where they could make improvements.

Each student is awarded an assessment mark and that represents a measure of the student's achievement relative to other students. The assessment mark is derived from the results of a number of assessment tasks, as outlined in the schedules published in this booklet.

The purpose of assessment is to improve student learning. It gives the student the opportunity to demonstrate her learning in a range of contexts. It further provides the student with the chance to reflect on and review their progress and help set the direction for future learning.

The assessment program will contain both informal and formal assessment. Examples of these are:

Informal Assessment

- Class Projects, Class Assignments
- Classroom activities
- Homework assignments
- Mini-tests, Quizzes
- Group and pair work
- Bookmark

Formal Assessment

- Projects
- Presentations
- Research assignments
- End of unit tests
- Half Yearly and Yearly Examinations
- Assessment tasks

NSW Education Standards Authority (NESA) Website

Syllabi for all courses may be accessed through the NSW Education Standards Authority (NESA) website at <http://educationstandards.nsw.edu.au>

The following principles apply to all Assessment Tasks in Years 7 and 8

- Students will be given advance notice in writing (approximately 2 weeks) of the exact date for completing or submitting a task. Students will sign a roll to indicate they have received an assessment task notification.
- Students must submit their assessment tasks to their class teacher by the due date. If the teacher is absent, the task must be submitted to the Head Teacher.
- Students must submit their tasks when they are due. It is important to meet the deadlines for tasks, otherwise they may have a zero-mark awarded and a letter sent home informing their parents.
- If a student cannot submit a task for a reason beyond their control, they must submit a Illness/Misadventure Appeal form. This must be completed and handed to the relevant Head Teacher with the relevant documents. The Head Teacher will decide on the appropriate course of action.

Absence on the Day of an Assessment Task

If a student is absent on the day of an assessment task:

- The student or his parent must telephone the school and inform the class teacher.
- A doctor's certificate is required if the absence is on medical grounds. Medical Certificates must:
 - i. include the day of the missed task;
 - ii. show the length of time the student will be unfit for school;
 - iii. be produced immediately on return to school.
- A deduction of 10% per day (including weekends) will apply for an assessment task submitted late without an acceptable reason up to 3 days. Tasks submitted more than 3 days late will receive a zero.
- A student who does not attend all lessons on the day of an assessment task will not have the assessment task mark counted unless there are extenuating circumstances. Technology malfunction will not be accepted as a reason for late submission of a task. Work can be submitted electronically in consultation with the teacher.
- If the student does not submit an Illness/Misadventure Appeal form to the relevant Head Teacher on their return to school, after the due date of the missed assessment task, a zero mark will be awarded and a letter sent home to inform parents.

Absence due to Foreseen Circumstances, School Business or Approved Leave

On some exceptional occasions, your inability to meet assessment dates can be foreseen prior to the deadline. Examples include emerging clashes with major sporting events, work placement, student leadership events or approved leave. If this occurs, it is the student's responsibility to immediately contact the Deputy Principal and Head Teacher of the course concerned before the date of the task. In doing so you are required to submit a School Business or Approved Leave Application requesting the opportunity to negotiate alternative arrangements to complete the task.

If an assessment task is not submitted or completed because of foreseen circumstances, and no attempt was made prior to the date of the task to negotiate alternative arrangements with the Head Teacher through the submission of an application, penalties will be applied, or a zero mark may be awarded.

The outcome of your School Business or Approved Leave Application will be decided by the Deputy Principal and Head Teacher after considering the information provided.

The possible outcomes of your application include:

- Original task to be completed at or by a negotiated time;
- Alternative task to be completed at or by a negotiated time.

NOTE: Where the student submits the task or the application after the due date, refer to the Absence on the Day of an Assessment Task section above.

Illness / Misadventure Appeal

To apply for an exemption the student must fill out an Illness/Misadventure Appeal form. This must be submitted to the relevant Head Teacher on their next school day of attendance, after the due date of the missed assessment task.

A If the Illness/Misadventure Appeal is **accepted**, then the teacher of that course will:

- arrange for the student to attempt the task at a different time;
- arrange for the student to attempt an alternative task of a similar nature.

In exceptional circumstances the Deputy Principal may authorise the use of an estimate based on appropriate evidence.

B If the Illness/Misadventure Appeal is **not accepted**, the student will be awarded a zero mark and a letter will be sent home to inform parents.

Students may appeal against the Head Teacher's decision by lodging an appeal form with the Deputy Principal **within three (3) school days of initial determination**.

The Principal may:

- Reject the appeal and order the zero mark to stand;
- Grant a limited extension;
- Order that a substitute task be performed; or
- Award an estimate.

Plagiarism

Plagiarism is submitting work that is someone else's work or ideas, words, expressions, arguments, drawings, graphics, maps, video programs or digital files. Plagiarism also includes summaries of someone else's work and paraphrasing of information without acknowledging the author. Plagiarism is dishonest, unethical and not permitted by NESA. Work which is not a student's own work will not be accepted. Plagiarism of any form will result in the student being awarded a zero-mark and a letter sent home informing their parents.

Non-Serious Attempts

A non-serious attempt includes inappropriate language and answers and minimal effort in completing the assessment task.

A non-serious attempt at an assessment task may lead to the student being awarded a zero-mark and a letter sent home informing parents. The Head Teacher, in consultation with the teachers involved, will determine whether an attempt is non-serious and if so, it will count as a non-attempt. If this is the case, the student will be awarded a zero-mark and a letter sent home to inform their parents.

Cheating

Cheating is any attempt to gain an unfair advantage over other students or to complete a task in a dishonest way. If this is the case, the student will be awarded a zero-mark and a letter sent home to inform their parents.

Disrupting a Test or Examination

Any student causing a disruption in a test or examination will be awarded a zero mark and a letter sent home to inform their parents.

HOME BUSH BOYS HIGH SCHOOL

ILLNESS/MISADVENTURE APPEAL

This form is to be completed by the student who is unable to attend an assessment task

The completed form must be submitted to the Deputy Principal on the first day back at school immediately after the due date of the assessment.

If the Deputy Principal is absent, this form must be submitted to the Principal.

- ☐ Deputy Principal issues and receives Illness/Misadventure Appeal form
- ☐ Deputy Principal discusses with the Principal and Head Teacher
- ☐ Head Teacher receives a photocopy of the appeal
- ☐ Before Half Yearly reporting period (Yr7-11) and Yearly reporting (Yr7-12), Principal, Deputy Principal and Head Teacher will meet to discuss the appeal.
- ☐ The School will enter details on SENTRAL and generate outcome letter for parent. A copy will be placed into the students file.
- ☐ Principal will sign the letter and give to front office for posting.

SCHOOL WRITING STRATEGY

Writing has been identified as a key issue across the school. In Year 8, the focus is on *accurate writing for a purpose*.

To support the development of students' writing, the school has adopted a **Year 8 Writing Strategy**.

In each Semester, one assessment task in each subject (except Mathematics) will involve *extended writing*. Students will be given written notification of these tasks at least two weeks before they are scheduled, and will be prepared through modelling exercises beforehand, so they are clear about what to do.

Then, all writing will be marked using the same marking scale across the Year and graded (A to E) using the same standards. These writing grades will be shown on all Semester Reports.

Students' writing grades will help to identify those students needing further support to improve their writing and will assist in tracking improvement over time.

LITERACY

Outcomes

WRITING

Informative text indicators

Crafting Ideas

- writes sustained, informative texts that precisely explain, analyse and evaluate concepts or abstract entities
- uses structural features flexibly to organise ideas strategically
- uses classification to organise ideas and information
- writes texts with forms and features combined strategically for purpose
- uses evidence and references
- writes succinct short-answer explanatory texts as well as complex, multi-staged extended texts

Text Forms and Features

- maintains tone appropriate to the audience
- uses extended noun groups including adjectival phrases
- judiciously uses language and multimodal resources to emotionally or intellectually affect audience

Vocabulary

- uses complex abstractions

Generic indicators

- spells a range of challenging words correctly

Persuasive text indicators

Crafting Ideas

- writes sustained, robust arguments on complex learning area topics
- anticipates reader knowledge and possible bias and accommodates these in development of arguments
- uses structural features flexibly to organise ideas strategically
- positions the reader effectively by previewing the arguments
- develops a cohesive argument with an effective conclusion
- strategically selects multimodal resources to position the reader/viewer

Text Forms and Features

- uses evaluative language devices such as allusion, evocative vocabulary and metaphor
- uses language devices for persuasive effect
- uses sophisticated evaluative language
- judiciously uses language and multimodal resources to emotionally or intellectually affect audience

Vocabulary

- uses vocabulary for precision

Outcomes

Generic indicators

- spells a range of challenging words correctly

Imaginative text indicators

Crafting Ideas

- writes sustained texts that develop more abstract themes or concepts in imaginative ways
- uses structural features flexibly to organise ideas strategically (deliberate repetition to reinforce a point or create a rhythmic flow)
- develops an imaginative text around a theme or social issue

Text Forms and Features

- uses stylistic features for effect
- uses recurring imagery for cohesion
- uses a range of literary techniques such as personification
- uses language to create humour
- uses complementary noun and verb groups

Vocabulary

- uses vocabulary for precision
- uses figurative language to create subtle and complex meaning

Generic indicators

- spells a range of challenging words correctly

The National Literacy Progression at the level of Year 8 will be used to determine outcomes in summative assessment tasks

In-Class Assessment

Classwork is an important part of everyday teaching and it involves both formal and informal (assessment for learning) types of assessment by the teacher, to measure the student's level of achievement. This is a good opportunity to test for content. Literacy development influences student success in many areas of learning at school. The National Literacy Learning Progression will be used to support students to successfully engage with the literacy demands of the Year 8 syllabus.

ENGLISH

Outcomes

EN4-1A	Responds to and composes texts for understanding, interpretation, critical analysis, imaginative expression and pleasure
EN4-2A	Effectively uses a widening range of processes, skills, strategies and knowledge for responding to and composing texts in different media and technologies
EN4-3B	Uses and describes language forms, features and structures of texts appropriate to a range of purposes, audiences and contexts
EN4-4B	Makes effective language choices to creatively shape meaning with accuracy, clarity and coherence
EN4-5C	Thinks imaginatively, creatively, interpretively and critically about information, ideas and arguments to respond to and compose texts
EN4-6C	Identifies and explains connections between and among texts
EN4-7D	Demonstrates understanding of how texts can express aspects of their broadening world and their relationships within it
EN4-8D	Identifies, considers and appreciates cultural expression in texts
EN4-9E	Uses, reflects on and assesses their individual and collaborative skills for learning

In-Class Assessment

Classwork is an important part of everyday teaching and it involves both formal and informal (assessment for learning) types of assessment by the teacher, to measure the student's level of achievement. The English Faculty's assessment program is comprised of three across-year formal assessment tasks – two in Semester One and one in Semester Two. The Half Yearly report mark will be made up of the first assessment task and a class mark. The Year rank is based on the formal task only.

The mark in the Yearly report will be made up of all three assessment tasks and class marks. The Year rank and grade will be based on the three assessment tasks only. As well, please note the first 28 students in the assessment rank make up the targeted 'A' class in the following year.

MATHEMATICS

Outcomes

MA4-1WM	Communicates and connects mathematical ideas using appropriate terminology, diagrams and symbols
MA4-2WM	Applies appropriate mathematical techniques to solve problems
MA4-3WM	Recognises and explains mathematical relationships using reasoning
MA4-4NA	Compares, orders and calculates with integers, applying a range of strategies to aid computation
MA4-5NA	Operates with fractions, decimals and percentages
MA4-6NA	Solves financial problems involving purchasing goods
MA4-7NA	Operates with ratios and rates, and explores their graphical representation
MA4-8NA	Generalises number properties to operate with algebraic expressions
MA4-9NA	Operates with positive-integer and zero indices of numerical bases
MA4-10NA	Uses algebraic techniques to solve simple linear and quadratic equations
MA4-11NA	Creates and displays number patterns; graphs and analyses linear relationships; and performs transformations on the Cartesian plane
MA4-12MG	Calculates the perimeters of plane shapes and the circumferences of circles
MA4-13MG	Uses formulas to calculate the areas of quadrilaterals and circles, and converts between units of area
MA4-14MG	Uses formulas to calculate the volumes of prisms and cylinders, and converts between units of volume
MA4-15MG	Performs calculations of time that involve mixed units, and interprets time zones
MA4-16MG	Applies Pythagoras' theorem to calculate side lengths in right-angled triangles, and solves related problems
MA4-17MG	Classifies, describes and uses the properties of triangles and quadrilaterals, and determines congruent triangles to find unknown side lengths and angles
MA4-18MG	Identifies and uses angle relationships, including those related to transversals on sets of parallel lines
MA4-19SP	Collects, represents and interprets single sets of data, using appropriate statistical displays
MA4-20SP	Analyses single sets of data using measures of location, and range
MA4-21SP	Represents probabilities of simple and compound events

In-Class Assessment

Classwork is an important part of everyday teaching and it involves both formal and informal (assessment for learning) types of assessment by the teacher, to measure the student's level of achievement. This is a good opportunity to test for content.

The content strands are Number, Patterns and Algebra, Data, Measurement, Space and Geometry. The class mark is a measure of classwork within a particular class. It includes class tasks, exercise book, and class involvement. The Yearly Report mark will be made up of all the tasks for the Year.

Please note the above outcomes might be adjusted due to external circumstances.

SCIENCE

Outcomes

SC4-4WS	Identifies questions and problems that can be tested or researched and makes predictions based on scientific knowledge
SCLS-5WS	Collaboratively and individually produces a plan to investigate questions and problems
SCLS-6WS	Follows a sequence of instructions to safely undertake a range of investigation types, collaboratively and individually
SCLS-7WS	Processes and analyses data from a first-hand investigation and secondary sources to identify trends, patterns and relationships, and draw conclusions
SCLS-8WS	Selects and uses appropriate strategies, understanding and skills to produce creative and plausible solutions to identified problems
SCLS-9WS	Presents science ideas, findings and information to a given audience using appropriate scientific language, text types and representations
SC4-11PW	Discusses how scientific understanding and technological developments have contributed to finding solutions to problems involving energy transfers and transformations
SC4-14LW	Relates the structure and function of living things to their classification, survival and reproduction
SC4-17CW	Explains how scientific understanding of, and discoveries about the properties of elements, compounds and mixtures relate to their uses in everyday life
SC4-14LW	Relates the structure and function of living things to their classification, survival and reproduction

MUSIC

Outcomes

4.1	Performs in a range of musical styles demonstrating an understanding of musical concepts.
4.2	Performs music using different forms of notation and different types of technology across a broad range of musical styles.
4.3	Performs music demonstrating solo and/or ensemble awareness.
4.4	Demonstrates an understanding of musical concepts through exploring, experimenting, improvising, organising, arranging and composing.
4.5	Notates compositions using traditional and/or non-traditional notation.
4.6	Experiments with different forms of technology in the composition process.
4.7	Demonstrates an understanding of musical concepts through listening, observing, responding, discriminating, analysing, discussing and recording musical ideas.
4.8	Demonstrates an understanding of musical concepts through aural identification and discussion of the features of a range of repertoire.
4.9	Demonstrates musical literacy through the use of notation, terminology, and the reading and interpreting of scores used in the music selected for study.
4.10	Identifies the use of technology in the music selected for study, appropriate to the musical context.
4.11	Demonstrates an appreciation, tolerance and respect for the aesthetic value of music as an artform.

VISUAL ARTS

Outcomes

4.1	Uses a range of strategies to explore different artmaking conventions and procedures to make artworks.
4.2	Explores the function of and relationships between artist – artwork – world – audience.
4.3	Makes artworks that involve some understanding of the frames.
4.4	Recognises and uses aspects of the world as a source of ideas, concepts and subject matter in the visual arts.
4.5	Investigates ways to develop meaning in their artworks.
4.6	Selects different materials and techniques to make artworks.
4.7	Explores aspects of practice in critical and historical interpretations of art.
4.8	Explores the function of and relationships between the artist – artwork – world – audience.
4.9	Begins to acknowledge that art can be interpreted from different points of view.
4.10	Recognises that art criticism and art history construct meanings.

HISTORY

Outcomes

HT4-1	Describes the nature of history and archaeology and explains their contribution to an understanding of the past
HT4-2	Describes major periods of historical time and sequences events, people and societies from the past
HT4-3	Describes and assesses the motives and actions of past individuals and groups in the context of past societies
HT4-4	Describes and explains the causes and effects of events and developments of past societies over time
HT4-5	Identifies the meaning, purpose and context of historical sources
HT4-6	Uses evidence from sources to support historical narratives and explanations
HT4-7	Identifies and describes different contexts, perspectives and interpretations of the past
HT4-8	Locates, selects and organises information from sources to develop an historical inquiry
HT4-9	Uses a range of historical terms and concepts when communicating an understanding of the past
HT4-10	Selects and uses appropriate oral, written, visual and digital forms to communicate about the past

Any form of appropriate assessment can be used - e.g. oral presentation, computer activity, topic tests, poster, response question, report etc.

CHINESE

Outcomes

LCH4-1C	Uses Chinese to interact with others to exchange information, ideas and opinions, and make plans.
LCH4-2C	Identifies main ideas in, and obtains information from texts.
LCH4-3C	Organises and responds to information and ideas in texts for different audiences.
LCH4-4C	Applies a range of linguistic structures to compose texts in Chinese, using a range of formats for different audiences.
LCH4-5U	Applies Chinese pronunciation and intonation patterns.
LCH4-6U	Demonstrates understanding of key aspects of Chinese writing conventions.
LCH4-7U	Applies features of Chinese grammatical structures and sentence patterns to convey information and ideas.
LCH4-8U	Identifies variations in linguistic and structural features of texts.
LCH4-9U	Identifies that language use reflects cultural ideas, values and beliefs.

Languages cover the four language skills:

LISTENING | READING | SPEAKING | WRITING

Course Description

The study of languages provides opportunities for students to become more accepting of diversity, more respectful of others and more aware of their place in the international community. The outcomes described for Stage 4 should be regarded as the basis for the further development of knowledge, understanding and skills in the target language.

In-Class Assessment

Classwork is an important part of everyday teaching and it involves both formal and informal (assessment for learning) types of assessment by the teacher, to measure the student's level of achievement. This is a good opportunity to test for content.

PERSONAL DEVELOPMENT, HEALTH & PHYSICAL EDUCATION

Outcomes	
4.2	Examines and demonstrates the role help-seeking strategies and behaviours play in supporting themselves and others.
4.4	Refines, applies and transfers movement skills in a variety of dynamic physical activity contexts
4.5	Transfers and adapts solutions to complex movement challenges
4.6	Recognises how contextual factors influence attitudes and behaviours and proposes strategies to enhance health, safety, wellbeing and participation in physical activity.
4.7	Investigates health practices, behaviours and resources to promote health, safety, wellbeing and physically active communities
4.8	Plans for and participates in activities that encourage health and a lifetime of physical activity

In-Class Assessment

Classwork is an important part of everyday teaching and it involves both formal and informal (assessment for learning) types of assessment by the teacher, to measure the student's level of achievement. This is a good opportunity to test for content. In Personal Development, Health and Physical Education students cover the following units; Bullying, Personal Safety, Drug Use, Mental Health and Adolescence and Change. Students analyse health issues that impact on young people, learn how to access and assess health information, develop an understanding of inclusivity and diversity as well as explore positive relationships and strategies that enhance their ability to cope and feel supported. In practical lessons, students engage in Invasion Games, Net and Court, Target Games and Striking and Fielding units and learn tactical awareness, strategies, analysis of movement and the value of physical activity. Students are assessed on both theory and practical outcomes.

TECHNOLOGY

Mandatory

Outcomes	
TE4-1DP	Designs, communicates and evaluates innovative ideas and creative solutions to authentic problems or opportunities
TE4-2DP	Plans and manages the production of designed solutions
TE4-3DP	Selects and safely applies a broad range of tools, materials and processes in the production of quality projects
TE4-4DP	Designs algorithms for digital solutions and implements them in a general-purpose programming language
TE4-5AG	Investigates how food and fibre are produced in managed environments
TE4-6FO	Explains how the characteristics and properties of food determine preparation techniques for healthy eating
TE4-7DI	Explains how data is represented in digital systems and transmitted in networks
TE4-8EN	Explains how force, motion and energy are used in engineered systems
TE4-9MA	Investigates how the characteristics and properties of tools, materials and processes affect their use in designed solutions
TE4-10TS	Explains how people in technology related professions contribute to society now and into the future

In-Class Assessment

Classwork is an important part of everyday teaching and it involves both formal and informal (assessment for learning) types of assessment by the teacher, to measure the student's level of achievement. This is a good opportunity to test for content. Students will be assessed during their initial cycle on the design specialisation area they are undertaking. This will be reported in Half Yearly Report. A mark out of 100 will be awarded and calculated as per the assessment schedule for Rotation 1. Ranks will be based on class group. Yearly School report will be based on the assessment carried out in second rotation cycle and include 80% from total of Rotation 2 marks as well as 20% marks from rotation 3. The teacher assessing Rotation 2 will be responsible for the completion of Yearly Reports. Ranks will be based on whole Year cohort group and include an overall achievement grade (A– E). All reports will have an overall Effort (1-5) as well.
